

50 YEARS OF PUNJAB IN RANJI TROPHY CRICKET

**COMPLETE STATISTICAL HISTORY
(1968/69 - 2017/18)**

To my loving husband who spent his life witnessing Indian
Cricket leagues and maintaining their statistics.

Your dream has come true.

THE AUTHOR

Late Sh. Rakesh Sanghi
(BCCI Scorer/Journalist)

Madhu Sanghi
(PCA Scorer/Author)

While the struggle to find one's essence in life might seem easy, many are constantly embroiled in the quest to find this elusive balance.

Interestingly, Japanese people have a solution in an idea known as “**Ikigai**” which means *‘Discovering what you love to work on’, ‘Discovering what are you good at’, ‘Discovering how you can serve mankind’ and ‘Discovering what you can be paid for’.*

In my modest opinion, I maintain that **Rakesh Sanghi**, my significant other, was one of the few people to possess Ikigai. His love for Cricket and Journalism was an embodiment of Ikigai.

Born in 1958 at Chandigarh India, he studied Engineering in Instrumentation from CSIO, Chandigarh. Soon, he found a much stronger passion in a totally unrelated field. He became fascinated with Cricket scoring and recording its stats. His contributions to recording Cricket scoring came to the limelight when he was asked to cover Hansraj Cricket Tournament at D.A.V Senior Secondary school in Chandigarh. He did this task with exceptional competence and accuracy which only revealed his enthusiastic passion towards Cricket scoring. This marked the beginning of his dazzling career which lasted until his demise in November 2017. Over the course of his life, he became the foremost authority in Cricket scoring at all levels in domestic and international leagues.

While he did not have any formal teaching or coaching in the aforementioned occupations, he demonstrated incorrigible determination while becoming a phenomenon in both fields.

He got his chance to be a part of the BCCI as a Cricket scorer came when he was just 16. Interestingly, he was becoming heavily involved with writing for a domestic newspaper during the same period. He stayed in love with these vocations during the course of his active years. Unlike most people that became enthusiastic about cricket after Indian cricket team came first place in the biggest international cricket championship, my husband had always been obsessed with this sport.

He created many records in the sport while setting the benchmark in Cricket scoring. His contributions to Cricket scoring elevated it to the status of an occupation long before it was considered as an occupation in the Northern region of India. This was not exclusively focused on highlighting scoring, he was equally dedicated to maintaining perfect records of every match that concerned the domestic Ranji teams. After a while, he enlightened me on the processes and I too began to hold lengthy archives containing details on top-tier games of these lineups. All of our documentation was much earlier before the advent of cricket databanks on the internet.

He became a member of the Association of Cricket Statisticians and Scorers of India and was equally the panel of Scorers of the All India Radio. Interestingly, he combined this passion with his love for writing as he never quit being a reporter for Hind Samachar group of Newspapers since he began working for the company in 1982.

Owing to the fervent and scrupulous nature of the documentation, our annals were adopted by three Cricket bodies in India. In instances where a retired player required his accounts to rejuvenate his sense of pride or to determine his remuneration from the system, my husband never failed to provide relevant and accurate records. He went on to write and circulate his book on Cricket in an epoch that did not recognize Cricket data as an Occupation.

He desired to continue along this path by introducing a sequence of journals after he stopped official duties. It was his intention to commence during the fiftieth anniversary of Punjab's involvement in Ranji cricket and to carry on with related contributions for Haryana and Himachal. Regrettably, his ambitions were thwarted when he departed suddenly, at a time that no one envisaged. The fulfillment of his aspirations and life's contributions have since become my unwavering goal.

I humbly pledge this book to his undying love for cricket with the belief that his legacy will never be forgotten.

Keeping scores in colour

By Our Staff Correspondent
CHANDIGARH, June 15 — Rakesh Kumar Sanghi, a 20-year-old student of the Indo-Swiss Training Centre here, has been using colour pencils for cricket scoring for the last three years. An 18-year-old girl from York-shire, A.1990, Priestley, who also uses colour pencils said some time back: "It is so simple a system that I cannot think why no one ever thought of it before." Rakesh Sanghi says he has been using the "colour pencils" since 1976. A different pencil is used for each bowler.

According to him the main benefit of this system is that the quality of the batsman is brought out in the scorebook. Since the pencils used are different for each bowler it is easy to judge how a batsman fares against each of them.

In this region Rakesh Sanghi and Nareish Prasher from Gurgaon are the "only two who do chart scoring". The directions in which the ball is hit are marked. For example in the Kanpur Test match between India and West Indies, G.R. Viswanath, who scored 179, scored most of the runs in the cover region. Sanghi had drawn a graph of each hit.

Rakesh Sanghi started scoring in 1974 when he kept scores in a match between the local D.A.V. School and the D.A.V. School at Nabha. The first chance to do scoring in a big match came in 1978 when he was appointed official scorer for the match at Kanpur. He was also the press scorer for the Abbas Ali Baig and Vijay Mehra benefit matches.

Rakesh also has his own "unique" scorebook which enables him to calculate the rate of scoring of each batsman. At the match between North Zone and West Indies he calculated the rate of scoring for pressmen. He was appointed the official scorer by the Punjab Cricket Association.

He has been selected as the official scorer of the Haryana Ranji Trophy team and he travels with the team during various matches.

He feels that not enough attention is being given to scoring in India. He pointed out how this had led to a number of mistakes. According to him three statisticians had given Ralinda's Goel's total score in 1978 as 417, 418 and 419, while according to him it was 422.

He says he enjoys scoring for Kapil Dev as he is a fast hitter of the ball. Among local cricketers, he says leg spinner Arun Sharma bowls the most maiden overs.

He has also compiled a statistical digest "Haryana in Ranji" which has details of Haryana players since 1971.

appointed official scorer for the Duleep Trophy match between North Zone and Central Zone. He has done scoring for 11 Ranji Trophy matches and one Test
